

REACH Compliance Declaration

On December 18, 2006, the European Parliament and the Council of the European Union adopted a regulation on chemical substances, titled Registration, Evaluation, Authorization and Restriction of Chemicals ("REACH"), EC No. 1907/2006.

Allegro MicroSystems, Inc. has completed our supplier surveying to the latest "Candidate List of SVHC for Authorisation" (June 2023 – 235 Substances). Please refer to the below table for materials that indicate having SVHC levels about the 0.1% w/w in an article. Allegro's parts are also compliant with the latest restrictions detailed in REACH Annex XVII (September 2023 – 72 substances) based on the substance-application use combination(s) detailed in the regulation. For detailed information on the substances used in any of Allegro's parts, please contact your local sales or marketing representative for a material declaration report.

To the best of our knowledge, the below is a list of SVHC substances, materials, and usage in which the concentration is greater than 0.1% by weight per an article:

MATERIAL	SVHC	CAS NUMBER	Use	Affected
MG35F	2,2',6,6'-tetrabromo-4,4'-isopropylidenediphenol	79-94-7	Encapsulation	KA package

Follow the below ECHA links for additional EU REACH regulation and latest SVHC candidate list information:

<https://echa.europa.eu/candidate-list-table>

<https://echa.europa.eu/substances-restricted-under-reach>

Allegro MicroSystems, Inc. assures customers that everything reasonably possible is being done to maintain compliance with all environmental standards. Allegro MicroSystems, Inc. shall not be liable, under any theory of law, and shall not be responsible to defend or indemnify any party should any finished goods that change the SVHC content to be above the thresholds as specified by the EU REACH regulation. Per Allegro SVHC calculations, all parts sold by Allegro are below the SVHC thresholds unless indicated in the above table. We will continue to communicate with our suppliers and maintain compliance records for all our products as part of our compliance program.

Regards,

Brian Izzio

Director, Quality Management Systems
